

UCSB Guidelines for IGETC After Transfer

Two options for completing IGETC after transferring to UCSB are:

1. Earn a grade of C or higher in approved UCSB coursework (*see IGETC and UCSB Choices outlined in the next section*).
2. Earn a grade of C or higher in certified IGETC coursework at a community college.

(Please note: if you wish to take a course at a community college while concurrently enrolled at UCSB, you must petition for the Dean's approval **prior** to enrolling at the community college.)

It is your responsibility to notify the IGETC After Transfer Coordinator when you have completed your final IGETC requirement(s).
