NOTES

- This is a sample program plan. Your program plan will differ depending on previous credit received, your course schedule, and available offerings.
- Students are strongly advised to work with an academic advisor to determine a personal program plan.
- This plan assumes no applicable high school or college credit taken prior to matriculation. Students who receive credit for courses taken prior to matriculation may be able to reduce their courseload or avoid taking summer classes if they have enough elective units to graduate.
- Students are responsible for fulfilling additional degree requirements over the course of their program, such as ensuring at least 60 total upper division units are completed. Consult an academic advisor for details.

* Level 1 - 6 courses in the following languages are only 4 units each: Hebrew, Portuguese, Hindi, Tibetan, Pashto, Punjabi, Turkish, and Spanish.
 All other level 1 - 6 language courses at UCSB are 5 units each.

** Some of the courses in areas II and III of the lower-division preparation for the major also satisfy GE requirements. See the list of GE courses in LASAR.

Additional tips to add flexibility to your program

- By attending UC EAP for a fall semester, depending on the program, students could complete the equivalent of as many as 24 quarter units - students should consult with major and college advisors to determine whether courses would satisfy major or GE requirements in advance
- Independent research courses allow students to pursue areas of interests under a flexible schedule while earning units toward their degree
- Several departments offer academic units for research carried out in conjunction with outside internships, allowing students to manage their schedule while exploring skill development and industry-related experiences
